IMPORTANT

The price of the stay includes the hospitalisation in a double/individual/suite room (according to rates), full board and inclusion of diagnostic procedures such as radiology, ultrasound scan and clinical laboratory, as well as our speciality's therapeutic procedures included within our range of services, except for those programs included within the range of services of Guttmann, NeuroPersonalClinic® (services which are not covered by the public health system); in case of child under 16 years old the sofa-bed for companion is included in the price. Not included in the price of stay: diagnostic and therapeutic procedures beyond our technological or specialisation level (CT, MRI, DIVAS, hemodialysis, chemotherapy, radio-therapeutic treatments, extracorporeal lithotripsy, maxillofacial surgery...). In those cases where any of these tests or treatments are required, -after consultation with the insurance agency, except in cases of extreme urgency-, this service will be independently invoiced and at cost price, together with the medical transport if required, since this is not included either. Moreover, special medication that may be required a new generation antibiotic: daptomycin, tigecycline, ertapenem, teicoplanin; systemic antifungal products: voriconazole, caspofungin, amphotericin B; albumen, cytostatic medicines; immunosuppressive drugs: MS and autoimmune diseases treatments... and other medication requiring specific authorization (hepatitis C, human-growth hormone) are not included in the price of the stay. Internal prosthesis, surgical implants and osteosynthesis material: Service which is not included in the price of the stay a invoiced and after budget authorisation to the insurance agency. External prosthesis, orthesis and/or technical aids that are required to gain the best level of patient's rehabilitation and to facilitate their social rehabilitation will be independently invoiced and after budget authorisation to the insurance agency. The proforma validity is 30 days from the date of issue or until there is a change of rates. If the payer executes the transfer and subsequently, until the treatment is initiated there is a change of rates, he will assume the difference prior to the initiation of the treatment. The translation service of the hospital has the mission of giving comfort to the patient and allowing communicative fluency in day to day aspects. In this context, this service is available in Catalan, Spanish, English and Russian) at the moment of the welcome and in all aspects related to treat, hospitality, organization but is excluded from the translation service the participation in therapeutic sessions (neuropsychology, speech therapy...).
